

Version 30.5(126) changes

- Laser prescription labels

The Origin Code and description has been added to the hard copy.

- Prescription filling

An option has been added to the prescription filling process. If the option is set, the account information will be displayed as always been the case. If the option is not set, the account information will not be displayed. If you want the information displayed, nothing needs to be done.

- Edit price schedule

This program has been converted to GUI.

- Add/Edit/Inquire/Delete account

These programs have been converted to GUI. As in other GUI programs, the delete function has been incorporated in the edit function using the red X in the upper right corner of the dialog box.

- Add/Edit/Inquire/Delete direct mail labels (DML)

These programs have been converted to GUI. As in other GUI programs, the delete function has been incorporated in the edit function using the red X in the upper right corner of the dialog box. Also added is the feature to scroll thru records using the f2/f3 keys, the buttons in the upper right corner of the dialog box, or the context menu invoked by right clicking on the dialog box then selecting the function.
