

Version 30.5(132) changes

- Service Provider/Prescriber/Provider

Numerous ID fields have been added along with the proper qualifiers in the pharmacy (service provider), prescriber, and pharmacist (provider) record.

The following fields have been added in the store record:

1. Plan specific ID
2. HCID (HC IDEa)
3. Combat Methamphetamine Epidemic Act (CMEA) Certificate ID
4. Other ID

The following fields have been added in the doctor record:

1. Plan specific ID
2. Foreign prescriber ID

The following fields have been added in the pharmacist record:

1. Other ID

- Georgia controlled substance report

Georgia controlled substance reporting ability has now been added.

- Wisconsin controlled substance report

Wisconsin controlled substance reporting ability has now been added.

- Segment/field options in D.0 plan record

The header segment has been added to this screen. Currently, all fields in the header segment are mandatory, but this was added for future versions.
